REST API MongoDB Mongoose
MySQL Firebase

Tools

Git Postman Linux scrapy
playwright

Education

B.Sc in Physiology

University of Calcutta

 2017-2020 | Kolkata, West Bengal

Higher Secondary

with Computer Science

Jawahar Navodaya Vidyalaya

 2014-2015 | Kalyani, West Bengal

Secondary

Jawahar Navodaya Vidyalaya

 2009-2013 | Kalyani, West Bengal

Languages

English Hindi Bengali

Experience

Developer at KalimiX

 Oct 2019 - Nov 2020

Added functionality to existing website, fixed bugs. Helped creating web-applications for clients, php as backend.

Projects

www.readease.in

Developed a content management system. NextJs was used to create the front end components, SSR, caching etc. while Node, Express and MongoDB were used to create back-end. Build REST API for CRUD operations, User Login System with proper privileges to modify the articles using JWT. Build an inbuilt WYSIWYG editor using slate-react.

Netflix Clone

Build a full working Netflix Clone using React and TMDB APIs. Functionality to add shows to favourite List, give rating, add to watchlist etc.

Axios was used for handling APIs and Redux for React State handling.

Multi-tenancy Based E-commerce Platform

Developed high traffic custom e-commerce web application via Laravel framework, HTML5, CSS3/SASS, JavaScript/React, MySQL and Elastic Search.

HackerNews Scraper

A Python scraper for HackerNews that provides news with more than 100 votes including the links of the news source. BeautifulSoup library used for pulling data out of HTML.

Certification Course
